The Bombay Gazette

No. 10,846—New Series. BOMBAY:—FRIDAY, AUGUST 31, 1883.

SHIPPING.

PENINSULAR AND ORIENTAL COMPANY.

QUARANTINE AT EGYPTIAN AND CONTINENTAL PORTS.

ARRANGEMENTS have been made for PASSING the Company's steamers THROUGH THE SUEZ CANAL in QUARANTINE, thus avoiding any detention in Egypt.

The HOMEWARD MAILS are now being landed at VENICE, but the Quarantine, which is still imposed at this and all other Continental Ports, PREVENTS the landing of PASSENGERS, and the QUICKEST route by which they can reach England is to proceed to PLYMOUTH DIRECT.

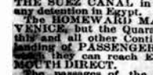
The passages of the steamers will continue to be accelerated as much as possible. The last four steamers have made the voyage from Bombay to Plymouth in 24 days. Until the Continental route is again open, passengers taking three-monthly Return Tickets will be allowed an extension of a fortnight, if required.

F. D. PARKER,
Superintendent.

Bombay, 9th August, 1883.

PENINSULAR AND ORIENTAL COMPANY.

STEAM to ADEN, SUEZ, PORT SAID, MALTA, GIBRALTAR, PLYMOUTH, LONDON, BRINDISI, VENICE, TRIESTE, AND MARSEILLES.



THE following or other Steamers will be despatched as above:—

Vessels.	Tons.	H.P.	Captains	1883.
SURAT	3147	530	C. R. Edwards	TUESDAY 4th Sept.
HYDASPES	2981	500	Geo. Scrivener	...11th "
CATHAY	2983	5 0	W. M. Robbie	...18th "
AUSTRALIA	3664	600	F. Alderton	...28th Sept.
BOKHARA	2932	500	H. Weigheil	...5th Oct.
ASSAM	3026	500	E. Cole	...12th "
LOMBARDY	2726	500	W. E. Breeze	...19th "
ROSETTA	3502	600	G. W. Brady	...26th "

A steam-barge will leave the Company's Dockyard, Mazagon, at 3 p.m., on the day of sailing to convey passengers on board.

Passengers are booked to ADEN, SUEZ, PORT SAID, MALTA, GIBRALTAR, PLYMOUTH, LONDON, BRINDISI, VENICE, and TRIESTE, by every Mail, and to MARSEILLES by every alternate Mail.

The steamers marked L proceed direct to London calling at Plymouth. By the others passengers change vessels at Suez.

STEAM TO PENANG, STRAITS, CHINA, JAPAN, KING GEORGE'S SOUND, ADELAIDE, MELBOURNE, AND SYDNEY, CALLING AT COLOMBO.

Vessels.	Tons.	H.P.	Captains.	On	1883.
SUTLEJ	4194	750	A. H. Johnson		...7th Sept.
ROHILLA	3500	600	W. Stewart.	first	"
VERONA	3116	600	G. W. Atkinson	5th	"

Return Tickets are now issued at greatly reduced rates to all ports, for particulars of which apply to

F. D. PARKER,
Superintendent, P. & O. S. N. Company.

Bombay, August 9, 1883.

FAVRE, LEUBA & CO.,
WATCHMAKERS, JEWELLERS, CHAINMAKERS,
BOMBAY & CALCUTTA.

CHRONOGRAPH WATCHES,
OF A NEW AND IMPROVED SYSTEM.

WE have just received a consignment of NEW RACE OR CHRONOGRAPH WATCHES which for durability, accuracy, precision, and convenience leave nothing to be desired.

The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.

The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.

All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.

They are in stock—

In white metal cases .....Rs. 70
" Sterling silver cases ..... " 80

Guarantee 2 years. Price cash. Postage and packing free.

FAVRE, LEUBA & CO.

STONE'S LGA (LIGHT) BASS' PALE ALE.

This Ale has been Specially Brewed by MESSRS. BASS and Co. at our request, to meet the demand there appears to be for a lighter Ale than that hitherto supplied.

It is brewed, as usual, of the finest materials obtainable, and with the exception that it is lighter (being in strength the same as the German and other light Beers) differs in no respect from the Ale so long associated with MESSRS. BASS and Co.'s and our own names.

The above and

BASS & CO.'S INDIA PALE ALE (AS HITHERTO SHIPPED.)

BOTTLED BY OURSELVES,
May be obtained of all the principal dealers in India.

BOMBAY FIRE INSURANCE COMPANY, Limited.

NOTICE is hereby given that an EXTRAORDINARY GENERAL MEETING of the Bombay Fire Insurance Company, Limited, will be held at the office of the Company, situate at No. 17, Tamarind Lane, within the Fort of Bombay, on FRIDAY, the 7th day of September, 1883, at 3 o'clock p.m., for the purpose of passing the following Special Resolution:—

That there be added to the Articles of Association of the Company, the undermentioned Article, which shall henceforth be read as if it were incorporated in the said Articles of Association, immediately after Article No. XXXV., under the heading "Subdivision of Shares," and shall be Article No. XXXIV.a.

XXXIV.a. The Company may by special resolution so far modify the conditions contained in the Memorandum of Association of the Company as by subdivision of its existing shares or any of them to divide its capital, or any part thereof, into shares of smaller amount than is fixed by the foregoing Memorandum of Association: provided that in the subdivision of the shares of the Company the proportion between the amount which is paid and the amount (if any) which is unpaid on each of the several shares into which any share may be subdivided shall be the same as it was in the share so subdivided as aforesaid.

By Order of the Board,
C. H. B. FORBES & Co.,
Secretaries and Managers.

Bombay, 30th August, 1883.

COMMERCIAL INTELLIGENCE.

THURSDAY EVENING, Aug. 30.

THE London Money market appears to be easier and a payment of £250,000 into the Bank of England is advised. In Lombard-street three and four months' bills are discountable at 3⅜ per cent., or ⅜ under the Bank rate. Consols have fallen to *par*, and there are some changes in Rupee paper. Four per cents. have advanced to £81¼, while Four-and-a-half per cents. have receded to £83⅞.

In the General Produce markets, Linseed is flat ; Wheat unchanged ; Coffee steady.

The Liverpool Cotton market yesterday closed dull, both for Americans and Surats ; arrivals dull. Spot prices are unaltered. In New York there is no change whatever either for ready or forward delivery. The figures to date are given below :—

	1883.	1882.	1881.
Total receipts up to Tuesday.....	5,961,000	4,665,700	5,820,200
Wednesday's receipts	3,000	3,200	7,800
Total since 1st Sept.	5,964,000	4,668,900	5,828,000

EXCHANGE.—Bar Silver, according to Reuter, remains steady at 50¾d. per oz., and the specie shipments of the week consist of £70,000 in Silver and £20,000 in Gold to Bombay, and £60,000 in Silver to Calcutta. As anticipated, the Government bills have brought very full rates. Thirteen lakhs of telegraphic transfers were allotted to Calcutta at 1s. 7 9-16d., and 2 1-10 lakhs ordinary demand drafts at 1s. 7¼d. The total sales for the week ending on Tuesday evening amounts to forty lakhs of rupees. The market opened firm at the quotations current last evening, and at one time 1s. 7 19-32d. for bank demand was obtained. Later on a quieter feeling sprung up, and we doubt whether better than 1s. 7 9-16d. can be had either for ready or a short time forward.

Bank Bills on Demand	1s. 7 9-16d.
Do. Telegraphic Transfer.....	1s. 7¾d.
Do. three months' sight	1s. 7¼d.
Credits, do. do.	1s. 7 27-32d.
Francs do. do.	....Fcs. 2·09½.

GOVERNMENT PAPER continues weak. We quote 4 per cents., Rs. 99⅜ ; 4½ per cents., Rs. 103¾.

SHARES.—There was a good inquiry for Fort Press shares, which have advanced to Rs. 2,950. Mofussils and Prince of Wales have declined to Rs. 452½ and Rs. 670 respectively. Mill shares are a shade lower, and only a small amount of business has transpired. In Land Companies some Colabas were done at the increased rate of Rs. 835 each, while Port Cannings have also improved to Rs. 335 per share. The excitement in Bombay and Barmah Trading shares continues, and sales have been effected to-day at Rs. 4,200 for the original and Rs. 845 for the second issue. Kemp and Company's shares have risen to Rs. 328 ex-div.

COTTON.—In sympathy with the tone of the home markets there is a quieter feeling here, and little or no inquiry on behalf of exporters. The incessant showers have likewise checked business on local account. "Good" new Machine-ginned Broach for March delivery is quoted at Rs. 209½ which price, however, may be said to be nominal, as there are no buyers.

WEATHER REPORTS.—Telegrams from Ahmedabad report good rains having fallen there, and those from Bhownuggur despatched last evening state that "forty cents rain since morning. Sky very cloudy."

		Per candy.
Machine-ginned Broach, Oomrawutiee,	F. G.	.....Rs. 175
Do.	Good	..... „ 168
Do.	F. G. F.	..... „ 162-163

Western	Good	..... „ 155
Do.	F. G. F.	..... „ 149
Dharwar Saw-ginned, Good		..... „ 164
Oompta		..... „ 145

LINSEED.—There is less inquiry in the market to-day, and buyers are only offering Rs. 5-11 per cwt. Sellers, however, are holding for Rs. 5-11½, and consequently only a small business has resulted.

In RAPESEED business is almost at a stand-still. Quotations are unaltered.

WHEAT remains quiet with but little doing, and prices close in favour of buyers. We quote White Pessie No. 1, Rs. 32 to Rs. 32½ ; Yellow, Rs. 27½ to Rs. 28 ; Luskari, Rs. 26 to Rs. 26½ ; and Catha, Rs. 24½ per candy.

FREIGHTS.—The steamer Brookfield having accepted 20s. for Liverpool on a filling up order, that figure is no longer obtainable, but rebids in the other steamers on the berth can be had at 22s. 6d. Rather more doing in Continental tonnage. For Antwerp, 26s. 3d. is asked.

PIECE-GOODS.—Our market opened with a moderate inquiry, but business is to some extent restricted on account of Hindoo holidays. The satisfactory weather reports coming to hand from the consuming districts throughout the Presidency are having a favourable effect.

DR. JAYNE'S SANATIVE PILLS have succeeded in working an effective cure, when all other drugs have failed.

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated ; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight ; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate, based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menist, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which so frequently are needed.

Pamphlet with self-suiting directions free on application.

C. MARCKS & Co.
43, Rampart-row, Bombay.

DOMESTIC OCCURRENCES.

THE CHARGE FOR NOTIFYING A DOMESTIC OCCURRENCE IS TWO RUPEES. THE ANNOUNCEMENT MUST BE AUTHENTICATED.

BIRTHS.

DEATHS.

BEGLAR—August 25, at Chinsurah, Shamir Josephwitch Beglar, familiarly

TELEGRAMS.

THE JURISDICTION BILL.

(FROM OUR SPECIAL CORRESPONDENT.)

SIMLA, AUG. 30.

Since the Allahabad paper regards my opinion, that the practical result of a decisive vote of the House of Commons in favour of Mr. Ilbert's Bill would be that the measure would pass almost as it stands, as very sinister, I may point out that it is shared by all the Conservative leaders except Mr. Ashmead-Bartlett. Your London correspondent has stated the same fact before, and the paper that abuses me for recalling it is itself aware of the true state of the case, for in another leader it declares the Calcutta opposition to be forlorn and obstinate in still thinking of appealing to Parliament. You may rely on the entire impartiality and trustworthiness of what I have told you in regard to the opinions of local Governments. The majority are against withdrawal, reccmmending, however, as you have done from the beginning, certain modifications. Mr. Grant Duff, Governor of Madras, and Mr. Crossthwaite, Commissioner of Burmah, adduce the violence and unreason of the Calcutta opposition as the strongest reason for persevering with the Bill. The effect of the disastrous line taken by the excitables was foreseen, and if we now shut our eyes to the realities of the political situation, we shall make matters worse and undergo the greater humiliation. The incapable writers and excitable orators who have constituted themselves leaders in this wretched business have jeopardised a good deal more than their own reputation. They have brought into question the very existence of political tact and aptitude in the Indian press, and among Indian public men.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, AUG. 30.

The whole of the papers containing the opinions of local Governments and officials will probably be published in the *Gazette of India* on Saturday, the 8th September.

RAIN AT AHMEDABAD.

(FROM OUR OWN CORRESPONDENT.)

AHMEDABAD, AUG. 30.

The much-needed rain has come at last. Slight showers fell this morning, and the sky is overcast, betokening plenty of rain.

THE LATE JUDGE PHILPOTTS.

Mr. Philpotts made his will during the cholera attack which killed him. The officers of the 23rd Native Infantry had no band evening, and will have no guest night, on account of Mr. Philpott's death. The Artillery do likewise; and the Civilians of the City have postponed their lawntennis games.

CHOLERA IN THE CITY.

Cholera is increasing in the City, and there are some cases in the Camp bazaar. It is hoped that the rain will do sanative good.

LATER.

The European engineer of the Spinning and Weaving Mills here died yesterday of cholera.

A SHIP WRECKED AND SIX LIVES LOST.

(FROM OUR OWN CORRESPONDENT.)

COCHIN, AUG. 30.

The ship Fazul Kareem, 1,011 tons, with a cargo of salt from Muscat for Calcutta, has been totally wrecked about nine miles south of Alleppy. One passenger and five of the crew were lost.

[REUTER'S TELEGRAMS.]

THE LATE ERUPTION AT JAVA.

BATAVIA, AUG. 20.

The tidal wave caused by the late eruption has completely destroyed Anjer, and has occasioned a great loss of life. The aspect of the Straits of Sunda has also been changed by the eruption, and navigation through them is dangerous.

CIRCULAR BY THE COUNT DE PARIS.

PARIS, AUG. 20.

A circular signed "Philippe, Comte de Paris," has been despatched to all the European sovereigns, notifying them of the death of the Count de Chambord.

MEETING OF COUNT KALNOKY AND PRINCE BISMARCK.

VIENNA, AUG. 29.

Count Kalnoky left here to-day for Salzburg, where he is to meet Prince Bismarck.

OPENING OF THE GERMAN PARLIAMENT.

VIENNA, AUG. 29.

The German Parliament was opened to-day. The Emperor's speech dealt solely with the Treaty of Commerce with Spain.

MOVEMENT OF CHINESE TROOPS.

HONGKONG, AUG. 29.

Two thousand Chinese troops are being sent to Canton, and great activity is being displayed in the Chinese arsenals.

THE INCOMING MAIL.

ADEN, AUG. 30.

The P. and O. Co.'s s. s. Sutlej, with the outward English mails of the 17th instant, left here for Bombay at 10 o'clock last night.

STEAMER MOVEMENTS.

LONDON, AUG. 29.

The B. I. S. N. Co.'s steamer Canara left here for Bombay, Kurrachee, and Malabar Coast this afternoon.

COLOMBO, AUG. 30.

Mail steamer Carthage, from Aden, arrived.
Mail steamer Peshawur, from China, arrived.

LONDON, AUG. 29.

The Liverpool Cotton market closed quiet. Surats quiet.

The London Cotton Market has been dull.

Fair Dhollera	3¾d.
The Manchester Market has been quiet but steady.	
Exchange on India, 60 days' sight	1-7¾
4 per cent. Rupee Paper	88¾
4½ per cent.	89¾
3 per cent. Consols for account	100
3½ per cent. Sterling Loan	102¾

HIS EXCELLENCY THE GOVERNOR was to leave Poona last evening on a short visit to Bijapur, returning probably on the 3rd September.

A CORRESPONDENT writes from Ahmedabad, Aug. 29 :—"Mr. Philpotts was very popular, and was known to be a kind and sound judge. It is said that on his deathbed he made a gift of some Rs. 2,000 to be laid out for the relief of infirm animals. As a token of the grief and sympathy deeply felt by the general public of Ahmedabad, the shops, schools, markets, and offices were closed all day yesterday."

A THUNDERSTORM which is described in the official reports as "terrific" occurred at Godhra, Panch Mahals, last week. Four different places in the town were struck by lightning; one woman was burnt and her two children were slightly hurt. Damage to property was caused amounting to some Rs. 300.

AN excellent programme is announced for the Town Hall Concert in aid of the Organ Fund this afternoon. Mrs. Morland and Mrs. Adams, Messrs. Wyer, Dixon, Roughton, Johnston, and Ward will sing; and Miss Janni and Mr. Mant will play solos on the piano and organ respectively.

MR. W. H. CROWE takes the late Mr. Cordeaux's place at Poona as Acting Judge and Sessions Judge, and Agent for Sardars in the Deccan, till Sir W. Wedderburn's return; and Mr. E. Hosking succeeds Mr. Crowe as Acting Judge and Sessions Judge at Thana.

LT.-COL. WALLER, V. C., is appointed Second Assistant to the Political Agent in Kattywar, and Joint-Administrator of the Sangli State, *vice* Lieut.-Colonel West; Lieut-Colonel Scott is appointed Assistant Political Agent in charge of the Southern Mahratta-Country Jaghirs, *vice* Lieut.-Colonel Waller, but to continue to be Joint-Administrator of Gondal, Major Salmon becoming substantive *pro tem* Assistant Political Agent in charge of the Southern Mahratta Jaghirs.

COL. BARTON'S services are replaced at the disposal of the Commander-in-Chief from the date of his handing over charge of the Political Agency of Kattywar.

THE Rev. C. F. H. Johnston, Chaplain of Colaba, has been granted three months' leave from 28th August.

MR. A. F. TURNER, Deputy Coroner of Bombay, has been granted leave for four months, and Mr. Edward Wilkin appointed to act for him.

MR. HORSLEY, Acting First Assistant Collector of Belgaum, is appointed to act as Collector of that district during the absence of Mr. Jervoise on leave for one month.

MR. G. SCOTT, Mamlutdar of Egutpoora, is transferred to Ahmednuggur to act as Huzur Deputy Collector, during the absence of Mr. W. R. Hamilton.

THE district known as the Civil Lines, Poona, is to be constituted a Municipal District, to be called the "Poona Suburban Municipality."

THE next examination for officers employed in the Police Department is to be held at the College of Science, Poona, on November 7.

A MARINE COURT assembled at Akyab on the 14th inst. to inquire into the loss of the ship Erminia G., but was unable to do any business, as the crew refused to give evidence until the arrears of their wages had been paid up. It appears that the Board had no power to force them to give evidence or to compel any one to pay them, and so the case had to be adjourned for another fortnight.

A LAHORE telegram to the *Indian Daily News* says :—"Doctor Spooner Hart, of Calcutta, has instituted a criminal charge of adultery against a local barrister named Alston. The case is postponed till next month. The lady concerned is *non est*."

THE *Statesman*, commenting upon the opinions of the European judges of the Calcutta High Court on the Jurisdiction Bill, says :—"We are far from satisfied with the Judges' treatment of Mr. Gupta's claim, concerning which they think it sufficient simply to say 'that the native civilians who enter the service by competition are a small and dwindling class.' The expression is peculiarly unfortunate, when we remember that it is no fault of native youth that it is so, but the calculated result of the unworthy device resorted to a few years ago to prevent their entrance into the service, by deliberately lowering the limit of age to a point that made it impossible for them to compete. The very fact, moreover, that they are so small a class invests their exclusion from the administrative powers to which their rank entitles them, with a peculiarly invidious aspect."

THE *Pioneer* has "received news of great importance from the Perso-Afghan Frontier, which goes far to establish our contention that the Russians have taken advantage of the supineness of the English Ministry to complete their arrangements for a stealthy advance eastward in the direction of Herat, the connivance of Persia to the occupation of certain advanced posts in Khorassan having already been assured. The nominal outpost of the Askabad force is Baba Durmez, 130 miles to the north-west of Sarrakhs; but it appears that Chacha (30 miles only from Sarrakhs), whence the direct road from Northern Persia to Merv leaves Khorassan, is looked upon as Russian territory, parties of Cossacks being nearly always there, and the people having been forbidden to pay revenue any longer to the Persian authorities. In fact, a British officer now at Meshed was warned that he was not to visit Chacha, as the Russians objected to any strangers proceeding there. Considering that the place is well within the Persian border, this is an extraordinary prohibition, and we now begin to understand the meaning of the secret treaty concluded between the Czar and the Shah." The Chacha above referred to is within a day's march of the Afghan frontier, and lies in a highly fertile valley. The *Pioneer* adds :—"Our information is derived from most trustworthy sources, and we have reason to know that the English Government are at last fully aware of what has taken place in the immediate neighbourhood of Meshed, and are alive to the dangers which are likely to arise, now that Russian troops are within thirty miles of the Afghan border. Mr. A. C. Stephen, the Second Secretary of the British Legation at Teheran, whose mission was mentioned in our columns some time ago, has returned, we understand, a valuable report on the state of the frontier. From Meshed he went south to Sabzawar, finished, eight miles west of Herat, and he travelled northwards, taking up the Hari Rud, reaching Sarrakhs by way of Zohrabad. He visited Kilat-i-Nadiri, and passed westwards to Lutfabad in the Daragez Atok, and thence journeyed by way of Daragez, Kuchan, and Bujnurd to Teheran. He probably reported that although the Russians had not formally taken possession of Chacha, it was theirs to all intents and purposes." Our contemporary urges that the accredited Agent (an officer of the stamp of Sir Oliver St. John for instance) should be sent without delay to Khorassan to watch the course of events."

THE Chinese are reported to have taken possession of the pass known as Sir-i-kul, which leads into Kunjoor—Kunjoor being on the northern boundary of Chitral, the other side of the Hindu Kush. Mr. Dalgleish, the travelling merchant, is said to recommend British influence being strengthened in those regions, but, remarks the Allahabad paper, "that is about the last thing likely to occur. We should be better off with a growing colony of Chinese there, as they are not likely to allow the Russians to bow them out some of these days. Mr. Dalgleish also wants a British Consul at Kashgar—possibly Mr. Dalgleish—to protect British manufactures and counterbalance the influence there of the Russian Consul; but it would be well not to offend the susceptibilities of the Russians."

ON the question of the attitude of the Bengal Volunteers in regard to the Jurisdiction Bill, we quote the following from a letter addressed to an up-country paper by a correspondent in Behar :—"We are asked as Volunteers 'What will you do?' On this point I answer for 270 sabres, and say that, however we may be treated by Government, however little regard may be shown for our feelings, our interests, or our liberties, as Volunteers we are its servants, and if called on will defend its honour with our lives. Nor do I believe there is an Englishman in the country who will do otherwise."

THE Jurisdiction Bill will of course, before it can become law, have to be approved by the votes of a majority of the Viceregal Legislative Council. On this point the *Statesman* remarks :—"One would naturally suppose from the way in which Mr. Gladstone, Lord Kimberley, and Lord Hartington are referred to, that the Ministry can force the measure upon the Legislative Council. We need hardly say that it can do nothing of the kind. Unless the Legislative Council make it law, it will never be law, failing an express Act of the Imperial Parliament. It would be wise, we think, for Lord Ripon to bring the Legislative Council up to its full legal strength before the Bill is again brought forward. At present, we believe, there are several vacancies therein, the English mercantile community being quite unrepresented through Mr. Miller's retirement. It will please all parties, we imagine, to see the Council strengthened, and it will lessen Lord Ripon's own responsibility."

THE *Statesman* believes that "if our civilian administrators could but 'count' there would be an end to their opposition to the self-government scheme. At the close of the official year 1880-81 there were less than nine hundred municipalities (881) in all India under British rule. Out of two hundred millions of people there were but 14½ millions having the semblance of self-government. Their whole income was but £2,260,000, and their expenditure £2,130,000." Our contemporary gives the following table showing the number of municipalities in each province exclusive of those in the Presidency towns :—

	Municipalities.	Population.	Revenue.
Bengal	192	2,943,091	£220,000
N.-W. Provinces and Oudh	169	3,081,996	£222,000
Punjab	195	2,095,000	£266,000
Central Provinces	61	608,000	£61,900
Mysore	84	503,000	£42,000
Madras	47	1,204,000	£135,000
Bombay	169	1,884,000	£272,000

MR. CLIFFORD LLOYD has, it seems, given up the new appointment to which he was recently gazetted, owing to "some misunderstanding as to the nature of the duties attached to the post." When it is remembered that this post was no other than the "Secretaryship of the Local Control Representation of the Home Government in Egypt," the misunderstanding is only natural. "The question was apparently whether the Secretary represented the body who controlled the Home Government, or whether he controlled the local representation of the Home Government, or whether the Government controlled the local representation, or the representation controlled the local Government. In fact, there was no end to the delightful possibilities for confusion which the post created."

A FRENCH balloon has crossed the Channel. A large balloon descended in the neighbourhood of Wood-green on August 4. It was manned by two French aeronauts named Dubois and Lattre, and from the statements made by them it appears that they ascended at Versailles on Friday with a view of going in the direction of Paris and descending there. They ascended to a great height and encountered a current which carried them towards the Pyrenees. By throwing out quantities of ballast they kept ascending and were carried out to sea. They resolved, if possible, to cross the Channel Night came on, and when morning broke they were still out at sea, and before long found themselves descending rapidly. Their position became dangerous, but by throwing out large quantities of ballast they succeeded in causing the balloon to ascend again, and eventually descended near Woodgreen. M. Lhoste, the aeronaut whose balloon adventures in the North Sea attracted attention a month or two ago, made his fourth attempt to cross the English Channel on the 6th instant. At the time of the ascent the weather seemed to be very favourable, but contrary winds drove the balloon inland in the direction of Belgium. M. Lhoste safely descended at Dixmude, a small town in West Flanders, the same night.

IF any faith is to be attached to a statement just communicated from Egypt, a rather new light will have been thrown, remarks the *St. James's Gazette*, upon the question how cholera is propagated from place to place in an infected country. "An Englishman, writing from Zagazig, where he has been residing for some time, announces his intention of remaining there as long as the swallows and sparrows do not take their departure. It has, he adds, been ascertained beyond a doubt by the experience of previous epidemics that as soon as the cholera is on the eve of establishing itself in any place these birds, as well as probably many others, flee from the impending evil. Now, if the germs of the disease, or of that which causes the disease, are wafted along like a blight, filling the whole atmosphere, making their presence felt at once by the denizens of the air, we have a confirmation of the theory that cordons and quarantines, however strict, cannot be relied upon as a guarantee. Moreover, as any blight or vitiation of the atmosphere of such a kind could hardly move, except by the aid of the wind, it would become almost certain that places to the windward of an infected centre might be saved from the epidemic until the wind changed. Any way, the theory may be worth attention."

MILITARY NEWS.

LT.-COL. GRIFFITHS, Second-in-Command, 16th Bo. N. I., has obtained fourteen months' leave to England.

MAJOR REAY, Wing Commander 13th Bo. N. I., goes home on thirteen months' furlough.

MAJORS VALENTINE BIRCH AND SAMUEL BARRETT MILES (the latter British Resident in the Persian Gulf and a Local Lieutenant-Colonel in Persia) are gazetted lieutenant-colonels on completion of twenty-six years' service.

SURGEON-MAJOR KIERNANDER, I. M. D., in medical charge, 16th Bombay N. I., is granted six months' furlough to Europe.

THE REGIMENTAL Journal, published monthly, has been stated by the 2nd Battalion of the Norfolk Regiment at Morar.

INTIMATION has been recently given to commanding officers of volunteer regiments at home that within three years from the commencement of 1883, gold lace, as in the Regulars and Militia, will have to be adopted by the volunteers, instead of the silver lace at present worn by officers and non commissioned officers of the force.

COURT-MARTIAL.—Gunner William Hogan, R.A., was charged before a district Court-martial, with (1st) failing to appear at the place of parade appointed by his commanding officer; (2nd) breaking out of barracks; (3rd) losing by neglect his regimental necessaries; and (4th) drunkenness. The Court found the prisoner guilty of all the charges, and sentenced him to be imprisoned with hard labour for 14 days and fined £1. Brigadier-General Mallaby, Commanding the Bombay District, has confirmed the sentence.

THE PROPOSED VETERINARY COLLEGE AND HOSPITAL.

THE following is the report of the Committee —consisting of Messrs. E. P. Robertson, Commissioner C. D.; Arthur Crawford, Commissioner S. D.; W. H. Propert, Acting Commissioner N. D.; J. Moore, Collector of Poona; J. H. Grant, Collector of Bombay; W. Lamb, Inspecting Veterinary Surgeon; Sir Jamsetjee Jeejeebhoy; Mr. Cooverjee Ardesir; and Mr. K. M. Shroff, hon. secretary, B. S. P. C. A.—appointed by Government in a Resolution, dated 25th May last, to consider a project for the establishment of a Veterinary College, with a Hospital attached to it, for the Bombay Presidency :—

To the Secretary to Government, Revenue Department.

Poona, June 1883.

SIR,—As directed by Government Resolution No. 4002 of 25th ultimo, we assembled in Poona on the 20th instant, and have now the honour, after holding three meetings, to submit our report on the proposal to establish a Government Veterinary College with an Hospital attached to it. We will take in order the main points stated in the 5th para. of the Government Resolution cited :—

1st Point.—The expediency of the establishment of a Veterinary College and Hospital.—We are unanimously of opinion that such a College and Hospital is much needed, and should be established. Horses, cattle of all kinds, sheep and dogs should be treated.

2nd Point (a).—The place whether Bombay or Poona, where such a College or Hospital, if established should be located. As to (*a*), the first part of the 2nd point, the Committee are of opinion that there are many reasons why Bombay is preferable to Poona as the home of the College and Hospital. Among them may be mentioned, 1st.—That a very large and influential general public would be interested in the success of the institution in Bombay; 2nd.—That the largest veterinary practice is to be expected in Bombay; 3rd.—That the services of the best lecturers can be secured in Bombay.

2nd point (b).—The particular site which would be most suitable.—As to (*b*), the particular site to be selected in Bombay, Mr. Lamb was anxious that the institution should be located in some central spot, and he suggested the vacant plot of Government land at Chaupati shown in the accompanying plan (A). On the other hand, Mr. K. M. Shroff informed the Committee that Mr. Dinshaw Manockjee Petit, with characteristic liberality, has made over to the "Society for the Prevention of Cruelty to Animals" a building and sites (containing 40,000 square yards on the Siwri-road in Parel, which he has recently purchased for Rs. 45,000 for the establishment of an hospital for the treatment and cure of the diseases of animals. This valuable property the Society offers to place at the disposal of Government for the purposes of the proposed Veterinary College and Hospital, together with all the animals sent to or collected by the Society, which will also undertake all charges on account of food of animals, medicines and all establishments required, on the condition that the teaching staff of the College be supplied and paid by Government and the buildings maintained in proper repair. Although the position of the proposed site is somewhat inconveniently situated, the advantages of the proposal are so enormous that the Committee are unanimously of opinion that, unless Government are prepared to incur very considerable extra expenditure to be hereafter detailed, the offer of the Society should be accepted, and the Government Veterinary College and Hospital should be located on the sites shown in plan B. Apart from important pecuniary considerations, all of which are largely in favour of the Siwri-road plan, and the advantages of a central position which the Chaupati scheme would possess, by the latter scheme all cattle which would probably be sent to an hospital at Chaupati many more horned cattle would be sent to Siwri-road: and that without the aid and the co-operation of the Society it is doubtful if any considerable number of horned cattle could be obtained wherever the Hospital may be located.

3rd Point.—The teaching staff and establishment which would be needed! As to the 3rd point and other details, the Committee have been guided by the proposals of a Calcutta Committee, of which similar institution, whose report has been published in the *Calcutta Gazette* and is doubtless available to Government. The report is dated 8th February, 1883. First, as to *Teaching Establishment*, on the basis of which it must be remembered, must *in either case* be borne by Government, the Committee concur with the views expressed by the Calcutta Committee in the 11th paragraph of the report as to the qualifications needed for the Superintendent and Professor, his assistant and the lecturers. The Committee also consider the proposed salary of the Superintendent and Professor, Rs. 900 sufficient, provided he is allowed Presidency house-rent in case no residence be provided on the spot, and a percentage on profits. But the Committee take a very different view from the Calcutta Committee of the salaries to be offered to the lecturers. The Calcutta Committee offer only Rs. 80 per mensem to a "selected Licentiate" with a knowledge of English sufficient to enable him to prepare text-books and to lecture on Anatomy and Physiology, or Materia Medica and Elementary Chemistry and Botany. He is to spend 5 or 6 hours daily in the Hospital during the session of the College, to superintend the dissection rooms and supervise the preparation of skeletons, dissections and diagrams or to superintend generally the compounding of medicines and to take charge of a certain number of sick cattle! In Bombay the Committee are sure that the services of lecturers thus qualified cannot be obtained under Rs. 250 per mensem. The Committee also make the pay of the Assistant Superintendent Rs. 300, so as to make his position slightly superior to that of the lecturers. The total monthly cost of the teaching staff would, therefore, be as follows :—1 Superintendent, salary Rs. 900; Presidency house-rent Rs. 60; total Rs. 960. 1 Assistant Superintendent resident on premises Rs. 300; 3 lecturers on Rs. 250 each Rs. 750; 1 farrier Rs. 80; 1 clerk Rs. 40; 2 peons on Rs. 10 each 20: total Rs. 1,900. The working establishment proposed by the Calcutta Committee (para. 12) is estimated to cost Rs. 241 per mensem. This Committee would adopt the same estimate, leaving details as to numerical strength and pay for future settlement.

4th Point.—The probable number and class of pupils.—The Committee are unable to estimate the number of pupils or to predict the classes from which they will be supplied: it is probable, however, that the pupils will be of the same class as those who now attend the Agricultural Class in the College of Science at Poona.

The Committee think that at the outset Government should prepare (as proposed in Calcutta) to grant stipends of Rs. 5 per mensem to 60 pupils. The stipend seems small at first sight, but it must be remembered that the Grant Medical College in Bombay and the College of Science in Poona are well attended though no stipends are offered. The Committee hope to attract pupils from the distant and outlying parts of the Presidency.

5th Point.—The annual cost, all charges included, of the College and Hospital.—The annual cost may be approximately estimated as follows :—

	Monthly. Rs.	Annually. Rs.
(*a.*) Teaching Establishment	1,900	22,800
(*b.*) Working Establishment	241	2,892
(*c.*) Stipends to Students 60 × 5	300	3,600
(*d.*) Medicines	100	1,200
(*e.*) Keep of 50 head of cattle at Rs. 8 per mensem	800	9,600
(*f.*) Repairs to Buildings		1,000
Total	Rs.	41,092
Add—Contingent Expenses 10 per cent.		4,109
Grand Total, annually	Rs.	45,201

In the event of Government accepting the offer of the Society for the Prevention of Cruelty to Animals, the annual cost to Government will comprise items (*a*), (*c*), and (*f*) only, or Rs. 27,400 per annum, the rest of the expense falling on the Society.

6th Point.—The probable receipts in the form of fees, contributions, payments for treatment of animals belonging to private owners, &c.—The Committee find it difficult to make any estimate under this head. They deprecate the levy of any fee from students; on the contrary, they adopt the Calcutta suggestion of paying stipends to pupils at first. As to contributions, the Committee do not think that they can count on more than the handsome contribution of the Society for the Prevention of Cruelty to Animals, whose income is already Rs. 25,000 raised by subscription. District Local Fund Committees, if they contribute, will probably do so by sending scholars to the College.

The Bombay Municipality may contribute, but whether to the College or to the Society, or to both, remains to be seen. The receipts from payments for treatment of animals belonging to private owners will not at first, if ever, be considerable, and cannot be estimated. Such receipts would be for horses treated at the Hospital. At Chaupati they would be numerous; at Siwri-road there would be few. At the latter place a portion of such fees and charges would have to be paid to the Society to cover the cost of medicines, which the Society would not supply gratis to private owners able to pay.

7th Point (a).—The probable cost of the College and Hospital Buildings.—The probable cost to Government of the College and Hospital buildings will depend, of course, upon wheiher the offer of the Society for the Prevention of Cruelty to Animals be, or be not, accepted.

If it be rejected, the Committee, on the authority of the Executive Engineer of the Presidency and the Collector of Bombay, estimate the probable cost of the College and buildings as follows :—All buildings as per abstract estimate (*C*)* Rs. 1,37,000; Value of land at Chaupati, 24,200 square yards at Rs. 10 per square yard = Rs. 2,42,000; total Rs. 2,58,000. If, on the other hand, the Society's offer be accepted, the cost of the College and buildings to Government will be limited to the expense of providing a Dissecting Room, Cooly Sheds, and Privies. Mr. K. M. Shroff has properly drawn the attention of the Committee to one of the conditions on which Mr. Dinshaw Manockjee Petit made over the Siwri-road property, *viz.*, that in the case of the Society being unable to maintain the Hospital and abandoning the site, "the lands and the *buildings that may at the time be standing thereon* shall be reconveyed to the donor or his lineal heirs." Under these circumstances, it seems for the present undesirable to spend a large sum on permanent or expensive buildings. The Executive Engineer, Presidency, after inspection with Mr. Lamb, estimates that the existing buildings could be adapted at a cost of Rs. 12,000 to provide not only the buildings above named, but also a residence for the Superintendent, another for his Assistant, with new servants' quarters and stables, a Lecture Room, a Library, Pharmacy and Office, and dormitories for six resident pupils. If, therefore, the Society's offer be accepted, the total initial outlay of Government for buildings would only be Rs. 12,000 as against Rs. 1,37,000 if independent action be taken by Government.

7th Point (b).—The probable cost of the various instruments, appliances, articles of dead stock, &c., which would be needed.—This Committee, under the 7th point (*b*), generally adopts the Calcutta estimate, which has been framed with evident regard to economy, namely :—

(*a*). Fitting and furniture of Lecture Room—such as benches, desk, demonstrating tables, blackboards, &c., &c.	1,000
(*b*). Fitting of Pharmacy with desks, tables, shelves, drawers, almirahs, sink, &c.	700
(*c*). Table and benches, washing stands, &c., for Dissecting Room	250
(*d*). A set of dissecting instruments for 60 students	200
(*e*). Appliances to stock Pharmacy at starting	250
(*f*). Surgical instruments	500
(*g*). Models, books and diagrams to be gradually collected—first grant	1,000
(*h*). Table, chairs and almirah for the office	100
Total	4,000

This outlay in either case would fall on Government. In conclusion, the Committee regret that in view of there being four vernaculars in this Presidency, and no books of reference in any of those vernaculars, the course of instruction must, at any rate, at first be in English. Only students who hold a first-class education certificate, or who have passed the 5th Standard, should be admitted to the College. As in Calcutta, the Committee recommend that the course of instruction be extended over three years. They recommend that ten of the passed or qualified students of every year for the first ten years should be guaranteed employment. The Committee believe that the passed students will be absorbed annually by the District Local Funds Committees, one qualified practitioner at least being posted to each taluka. The Committee think it premature to enter into several details regarding examinations, boards of examiners, and so forth. These points can only be satisfactorily settled when the precise intentions of Government are known.

The Government have issued the following Resolution on the Report, dated Aug. 6 :—

Resolution.—The Committee should be thanked for their interesting report. As regards the question of the site of the proposed Veterinary College and Hospital the Governor in Council concurs with the Committee in considering that Siwri-road site must be accepted. That situation undoubtedly has its drawbacks: it is at a distance both from the native town and the parts of Bombay in which Europeans mainly reside; it is somewhat out of the way; and comparatively few animals belonging to private persons are likely to be sent for treatment on payment to a veterinary hospital established there. On the other hand, owing to the benevolent generosity of Mr. Dinshaw Manekjee Petit in granting to the Bombay Society for the Prevention of Cruelty to Animals a large plot of land with buildings standing thereon, and to the liberal offer now made by that Society, the location at Siwri-road of the College and Hospital will enable Government to do so at a very small initial cost, as estimated, Rs. 1,23,000 for which it would at present be absolutely impossible to provide, and will in the first instance keep the current yearly cost to be defrayed by Government much less than would be the case where the College and Hospital established at the alternative site suggested at Chaupati. In these circumstances the Government are prepared to accept with pleasure the offer of the Society for the Prevention of Cruelty to Animals. The establishment proposed by the Committee would appear to be sufficient in point of numbers, and the cost of it is generally not moderate, but in respect of the teaching staff the outlay suggested seems too high. According to the recommendations of the Committee the teaching staff, excluding the farrier, clerk, and peons, would cost Rs. 1,760 per mensem, whilst at the proposed Calcutta College the teaching staff will, as estimated, cost only Rs. 1,285 monthly, and at the Lahore College the charges for the teachers amount to only Rs. 1,450 per mensem. The pay proposed to be given to the Superintendent (Rs. 900 + 60 house-rent monthly) is not excessive, and the salary recommended for the Assistant Superintendent (Rs. 300 per mensem) appears moderate. But in the opinion of the Governor in Council the salaries of Rs. 250 each monthly suggested for the two lecturers are unnecessarily large. In the Lahore College the lecturer in Anatomy and Chemistry and the lecturer in Materia Medica, who are apparently Assistant Surgeons on the Establishment, receive only Rs. 50 each per mensem in addition to their military pay, and in the proposed Calcutta College provision is made for the appointment of two lecturers of the Hospital Assistant class who would receive in addition to the pay of their rank a staff salary of Rs. 50 each monthly. In the case of Bombay College it would seem advisable, in the commencement at least and until the College has proved a practical success, to follow the course adopted at Lahore and proposed at Calcutta. It should be possible to obtain competent lecturers for the Bombay College at a materially lower rate of remuneration than that mentioned by the Committee. The Surgeon General with the Government of Bombay should be requested to report whether arrangements could not be made to supply qualified lecturers from the Assistant Surgeon or Hospital Assistant grades at a less cost than that suggested by the Committee.

The Governor in Council agrees with the Committee, who in their turn adopt the views of the Calcutta Committee, that the Superintendent should be, if possible, an Army Veterinary Surgeon of some standing and experience, and that his appointment should be made on terms similar to those advocated by the Calcutta Committee. In the case of the Lahore College the Supreme Government have consented to pay the entire salary of the Professor and Assistant Professor, and have further agreed to grant two scholarships of Rs. 7 each per mensem, a sum of Rs. 2,500 in the first year to assist in establishing a hospital and forge, and purchasing books, plates, &c., and a contribution of Rs. 200 in subsequent years for the last-mentioned purpose. The Governor in Council does not doubt but that the Government of India will be willing to give in the case of Bombay the same concessions as have been allowed in the case of the Lahore College, and, in a letter requesting that the same grants as have been made to the Lahore College may be given to the proposed Bombay College will now be addressed to that Government. On the receipt of the reply of the Government of India the Governor in Council will be in a better position to pass definite orders regarding the establishment of the Veterinary College and Hospital and the appointment of the requisite staff.

The Committee report that they can form no estimate as to the probable number of pupils or the classes from which they will be supplied, but in their scheme of expenditure they provide for 60 students and for a payment to each of a monthly stipend of Rs. 5. As regards the question of stipends the Governor in Council is of opinion that students may be granted subsistence allowances when necessary, but that the pupils to whom payment is thus made for receiving instruction at the College should be picked men, selected with regard to personal qualities and future intentions and that the stipends should not be granted indiscriminately to all persons who choose to attend the College as offering some hope of securing for them a present pittance and small posts hereafter under Government.

The Committee do not anticipate that any pecuniary assistance towards the maintenance of the College and Hospital will be supplied by Native States or Municipal and Local Fund Boards. The Governor in Council however trusts that some of the Native States under enlightened administration, such as Kolhapur, Idar, Bhavnagar and some other of the Kathiawar States, will avail themselves of the opportunity to have some of their subjects taught the veterinary art, and will send to the College students whom they will maintain without cost to Government. The Bombay Municipality are also willing to give some aid, and the Municipal Commissioner should be requested to report whether the Corporation will consent to defray some portion of the recurrent expenditure.

(Signed) J. M. CAMPBELL,
Secretary to Government.

The papers are at present before the Town Council.

* *Note.*—This does *not* include wall and railing at Rs. 7·8·0 per running foot.

† *Note.*—If Government do not grant the Chaupati site, the cost of another central site of that area would far exceed 1½ lakhs.

SIR CHARLES TURNER'S MINUTE ON THE JURISDICTION BILL.

THE following is the text of the Minute submitted by Sir Charles Turner (Chief Justice of Madras) on the subject of Mr. Ilbert's Bill :—

It has been suggested that in inviting the opinion of the Court on the provisions of the Bill, no more is expected of the judges, than that they should consider whether the Bill has been so drawn as to secure the objects exposed in the statement which accompanies it. But I apprehend that we are invited to acquaint the Government of India with our views on the expediency of the changes in the administration of criminal justice which the Bill, if it becomes law, would effect.

So much has the Bill been discussed in this country and in England, in the Legislature and in the Press, in Councils of Chambers of Commerce, and at public meetings, that the arguments for and against its several provisions must be familiar to the Government; and little that is novel can be added to the discussion.

Notwithstanding the exceptional Legislation for European British subjects, it cannot be contended that, as a matter of constitutional law, any race is recognized as dominant in British India. It is immaterial to speculate whether, having regard to the pretexts under which the territories of the Empire were acquired, it would have been consistent with justice to treat them as a conquered dependency. Faithful to its declared purposes, the British nation resolved that the claim of the Crown to sovereignty in India should rest on a nobler title. The key-note of the policy of British administration was never more truthfully touched than by Queen Victoria in the debate on the Marriage Act, 1872. "The real foundation on which the British power in this country stands is neither military force, as some persons specially assert (though certainly military force is an indispensable condition of our power), nor even that affectionate sympathy of the native populations, in which, according to a more amiable, though not, I think, a truer view of the matter, some think our rule ought to rest. The real foundation of our rule would be found to be an inflexible adherence to broad principles of justice common to all persons in all countries and all ages, and enforced with unflinching firmness in favor of or against every one who claims their benefit, or who presumes to violate them, no matter who he may be."

The aims of British administration in India are to secure the protection of life and property, the free development of trade and industry and liberty of conscience, and subserviently thereto to assure to all classes of Her Majesty's subjects in India equal privileges of citizenship. The principle of the proposed measure, in so far as it removes disqualification, is not novel. It is a leading principle of the policy of British Indian Administration adopted by Parliament half a century ago, and guaranteed to the people of India by the Royal Proclamation of 1858.

But while I recognize that the removal of the disqualification is in harmony with the principles of British administration, I do not forget that the application of our policy has been necessarily gradual. We have had to educate a people whose moral tone has been impaired by long subjection to arbitrary power; and from them, in their own interest, we have for a season been compelled to withhold a full measure of constitutional freedom. The question, then, which must attend every further concession of liberty, is whether the time has arrived when it can be made without imperilling ends demanding the first consideration of Government, the preservation of the peace, and the effectual and impartial administration of justice.

In the debate on the motion for the publication of the Bill, it was observed : "that the opposition to this Bill is in reality not so much an opposition to the particular measure as an opposition to the declared policy of Parliament about the admission of natives to the Covenanted Civil Service." With all deference, I think this explains the doubt of the correctness of this opinion. The class directly affected by the introduction of natives into its ranks is the Covenanted Civil Service. As a class, no men have by public acts and private efforts more loyally supported the native rule in this Presidency, and no books of reference in any of those vernaculars, the course of instruction must, at any rate, at

to fix the saddle on the right horse in the present case.

The Chairman's proposition, asking for an explanation from Mr. Grant, was then put and carried unanimously.

THE CALCUTTA EXHIBITION.

The Council considered a letter, dated 15th idem, from Mr. J. Griffiths, Superintendent, Sir J. J. School of Art, enclosing copy of the progress report of the Assistant Director, Department of Agriculture and Commerce, N. W. Provinces, and asking the Acting Commissioner to lay it before the Town Council, with reference to grants made by the Lucknow (Rs. 10,000), Benares (Rs. 2,000), and Agra (Rs. 2,000) Municipalities towards the formation of collections of specimens of local manufacture for the Calcutta International Exhibition; and asking the Acting Commissioner to recommend the Council to vote a proportionate sum to supplement the Government grant for a similar purpose; suggesting, should this recommendation be acted upon, that such articles as come under the heading of artwares and are purchased from the Municipal grant, might, after the Exhibition is over, be added to the collection, a nucleus of which is now being formed at the School of Art, for a permanent Art Museum.

Mr. Nowrojee remarked that it was not necessary to give instances of the grants made by different Municipalities for purchasing articles for the Calcutta Exhibition. The speaker then inquired whether, under the present state of the law regarding the appropriation of Municipal funds for different objects, any contribution could be legally made for the purpose applied for.

Mr. Dosabhoy Framjee said that if the grant would be perfectly legal, and referred the meeting to section 136 of the Municipal Act. A museum, he added, was a thing which instructed not only students, but the public generally, and the grant, therefore, would come under the head of public instruction.

It was doubted by some members that the grant could be legally made. Ultimately further consideration of the subject was postponed, and the Council adjourned.

HIGH COURT.—Aug. 30.

(Before the Hon'ble Mr. Justice Latham.)

A SUIT TO RECOVER FOUR HOUSES.

FAKIRCHUND MOTICHUND *vs.* MOTICHUND HARAKCHUND.

His Lordship delivered judgment in the case, which was heard about the middle of last month, the plaintiff's claim being to recover four houses which Mr. Lynch, as Acting Official Assignee and assignee of the estate and effects of Motichund Nathoosha, an insolvent, had sold to the defendant.

His lordship briefly stated the facts of the case. The plaintiff said that he and his father and Motichund Nathoosha were members of an undivided Hindoo family, and were possessed, as their ancestral property, of four houses situated in Champa-gully, in Withalwaddy. Motichund Nathoosha carried on a separate business as shroff, in which the plaintiff had no interest. Plaintiff was, however, interested in a gold and jewellery business which he and his father carried on in partnership with one Manchund. In January, 1879, Motichund Nathoosha stopped payment; and a few days later, filed his petition and schedule in the Insolvent Court. The defendant, who is a relation of Motichund Nathoosha, was at the time an unsecured creditor of his for Rs. 13,000; and at his suggestion Motichund handed over to him the title-deeds of his properties, and in order to give him a fraudulent preference, he made a false credit entry of Rs. 3,200 in his books, as received from the defendant. The entry also falsely recited that the title-deeds of the four houses above referred to had been deposited with the defendant as security. Motichund Nathoosha died in December, 1881. The plaintiff submitted that the alleged mortgage to the defendant was void, and that it in no way affected his right to the four houses. In March, 1882, Mr. Lynch, Acting Official Assignee, as representing the creditors of Motichund Nathoosha, sold the plaintiff's father's share in the properties to the defendant for Rs. 24,000, their real value being about Rs. 40,000. Plaintiff prayed that he might be declared entitled to the properties, and that the alleged mortgage be declared void. The defendant denied that the plaintiff and his father were possessed of the four houses in dispute as ancestral property, affirming that the mortgage was a *bond fide* one. His lordship, after referring to several authorities, came to the conclusion that the Official Assignee had the power to sell the properties. The proper mode of asserting the plaintiff's right was by suit against the Official Assignee; and the question whether the debts were valid ones was a matter for the Insolvency Court. The next question was as to the effect of the death of the insolvent; and his lordship, citing several cases, observed that they showed that the insolvency was not stopped by death, and that if death did not interfere with the insolvency, the insolvent must be supposed to be alive for that purpose. His lordship held that the right to sell the properties had vested in the Official Assignee; and judgment was therefore given for the defendant, with costs.

(Before the Acting Chief Justice and Mr. Justice Pinhey.)

APPEAL FROM A PRESIDENCY MAGISTRATE'S DECISION.

THE EMPRESS *vs.* DHULIP SUNMAN AND SADOO HURDYAL.

This was an appeal from a decision of Mr. Dosabhoy Framjee, C.S.I., who sentenced the prisoners to nine months' imprisonment and a fine of Rs. 300 each, with the alternative of three months' further imprisonment, on conviction of a charge of criminal breach of trust in respect of twenty-one buffaloes, of the aggregate value of Rs. 1,200. Mr. Masker appeared for the appellants; and Mr. Branson, with Mr. Atmaram Kirtikar, for the complainant in the Police Court.

Dhulip, a cultivator and money-lender, and kept a shop in Chimboor-gully, Bhendy-Bazaar. On the 23rd January, 1882, he said in his information, he purchased of Futtoo Protan sixteen buffaloes for Rs. 800, and a cadjan shed, in which the buffaloes were kept, for Rs. 55. At the same time he (Ooma) took into his service two Purdesees, named Sadoo Hurdyal and Dhulip Sunman, who had been in the employ of Futtoo Protan. He subsequently purchased five other buffaloes, which were kept in the same place. On the 21st January last the complainant left for his native country, and on his return to Bombay in April last, he could find neither his servants nor his animals. Dhulip was found some days later; and it was ascertained that he and Sadoo had sold the buffaloes. Sadoo was also arrested; and the complainant charged the two men with criminal breach of trust, and Poomamchund Kheema, a Marwaree, who now claimed nine of the buffaloes as his property, with receiving the stolen buffaloes. The two Purdesees were convicted by Mr. Dosabhoy Framjee, against which conviction and sentence they now appealed. Poonumchund was discharged, as the evidence did not show that he had any guilty knowledge that the buffaloes were stolen property.

The plea of the appellants was that the conviction rested upon the complainant's story and entries in his books alone.

The Chief Justice decided that the conviction by the magistrate must stand. The appeal was accordingly dismissed, Mr. Justice Pinhey concurring.

BENGAL.

A New Masonic Lodge.—Brethren of the mystic tie will be glad to learn that another lodge of Freemasons has been added to those already working under the District Grand Lodge of Bengal, namely, Lodge Nipal, at Goruckpore, which held its first meeting on Saturday, 25th instant.—*Pioneer.*

N.-W. PROVINCES, PUNJAB, AND OUDH.

The Ilbert Bill: Meeting in Allahabad.—A meeting of the working classes of Allahabad assembled at the Railway Theatre on Monday evening in connection with the agitation against the Criminal Jurisdiction Bill. There was a fair gathering of the railway employes and tradespeople of the station, with a sprinkling of Government uncovenanted servants. The primary object of the meeting was to express approval of the selection made by the European and Anglo-Indian Defence Association in appointing Mr. F. T. Atkins as their Deputy to England to explain to the working classes at home the position in which their brother-toilers in this country now find themselves, and the disabilities under which they will labour, should the Ilbert Bill be passed into law. Sundry other resolutions were passed expressive of regret and indignation that the protests and representations of the English speaking peoples of India should have been hitherto so little heeded by the Government, either here or in England, and of a determination to continue to agitate legitimately for the withdrawal of the Bill. The meeting was presided over by Mr. Collier, of the Railway, and the principal speakers were the Revd. W. H. N. Brennan, Mr. Duffle, and Mr. Atkins. The proceedings were orderly, and the audience most enthusiastic.—*Pioneer.*

Holloway's Pills.—The Great Need.—The blood is the life and on its purity depends our health, if not our existence. These Pills thoroughly cleanse this vital fluid from all contaminations, and by their power strengthen and invigorate the whole system, healthily stimulate sluggish organs, repress over-excited action, and establish order of circulation and secretion throughout every part of the body. The balsamic nature of Holloway's Pills commends them to the favour of debilitated and nervous constitutions, which they soon resuscitate. They subdue all obstructions, both in the bowels, and elsewhere, and are, on this account, much sought after for promoting regularity of action in young females and delicate persons who are naturally weak, or who from some cause have become so.

SARSAPARILLA.

Wilkinson's Essence or Fluid Extract of

RED JAMAICA SARSAPARILLA

Is the ONLY PREPARATION RECOGNISED by the FACULTY as a WONDERFUL PURIFIER of the HUMAN BLOOD.

It is not too much to say that those suffering from the effects of TROPICAL CLIMATES, such as TORPID LIVER, DEBILITY, ATTENUATION of BODY, ERUPTIONS, LASSITUDE, &c., will, by taking this extraordinary ESSENCE of RED JAMAICA SARSAPARILLA, soon find relief and ultimately a cure. It is asserted by those who take a little DAILY the system becomes less liable to attacks of illness.

"We cannot speak too highly of it."—*Lancet.*

"We recommend your *Red Jamaica Sarsaparilla*."—*Medical Review.*

"The only preparation for removing what may be called the Sequelæ of a mercurial course."—*Sir R. Martin.*

The late Lord Clyde, writing for a further supply of *Wilkinson's Sarsaparilla*, says, "I am never without it, for when feeling depressed or out of sorts from anxiety or fatigue, a dose or two animates me.

Your *Essence of Red Jamaica Sarsaparilla* CURE me of a Torpid Liver after all other remedies failed."—*Earl of Aldborough.*

THE CALCUTTA INTERNATIONAL EXHIBITION.

THE COMMITTEE appointed by H. E. the Governor in Council for the purpose of ensuring an adequate representation of the products of the Bombay Presidency, at the INTERNATIONAL EXHIBITION to be held in Calcutta, in December next, will be glad to receive CONTRIBUTIONS of Art-Ware, Jewellery, Ethnological Specimens, Fabrics, and other articles of adornment or luxury, in order that they may forward the same to Calcutta.

Persons who are desirous of sending articles intended in the first place for exhibition, and afterwards for sale, are requested to communicate, as early as possible, with the undersigned.

The Committee will do everything in their power to show to advantage all articles entrusted to them, and the greatest possible care will be taken of the same as long as they are under the Committee's charge. At the same time exhibitors are requested to note that neither the President, the Committee, nor the Honorary Secretary, will be responsible for any damage arising during transmission, exhibition, detention at Calcutta, or return of goods to Bombay.

Particulars as to description of articles wanted, &c., will be found in the advertisement in the newspapers of the 1st August 1883, or may be obtained on application to the Honorary Secretary.

By order of the Committee,
J. GORDON,
Honorary Secretary.

Bombay, 1st August, 1883.
